

Association for Prescribers

'Helping prescribers reach their full potential'

23rd Annual Conference & Annual General Meeting

10th November 2022

**'Non-Medical Prescribing – Reinvigorating Prescribing
Whilst Managing the Pressures'**

This will be a virtual event held by Zoom from **10.45am till 3.30pm**.
In the last two years the pressures on our healthcare community have intensified both those on the frontline and beyond.

The AFP annual conference will explore how the patient and system pressures have increased as well as the financial budgets and managing expectations. We will look at who supports the prescriber and how can we re-invigorate the prescribing role. Become a better version of you, how to do things differently with care and compassion whilst hearing the gratitude given.

Presentations will be given on medicine safety and de-prescribing, an update on the competency framework, challenges in remote settings, sustainable prescribing and much more.
